Comprehensive Catalog of 1,500 Project BLUE BOOK UFO Unknowns: Work in Progress (Version 1.7, Dec. 31, 2003)

Compiled by Brad Sparks, © 2001-2003

The main purpose of this catalog *at present* is to help identify and fill in where possible missing or difficult-to-obtain U.S. Air Force documentation on better quality Unexplained UFO cases, not to present *here* the "proof" of UFO reality nor to discuss possible IFO identifications, subjects reserved for later analysis once full files can be examined. Here the goal is preliminary and to compile more complete documentation, not the perfection of the analysis or categorizations. This catalog will be used eventually to produce *another* catalog of UFO Best Evidence after a screening process based on Hynek's and other criteria and for that reason columns for data on Duration, No. of Witnesses, Angular Size and "Instrumentation/Scientists etc." have been separately presented from the available case data and/or calculated where possible.

When Project Blue Book (BB) closed down on Jan. 30, 1970 (it was not on Dec. 17, 1969, which was merely the announcement date by the Secretary of the Air Force) the total number of Unidentified sightings was thought to be 701 and this is the number given on all subsequent press releases and so-called "fact sheets." However, based on the review by Hynek and the CUFOS staff of the released sanitized BB microfilm and Hynek's personal records which included many missing (and unsanitized) BB documents, the final number was determined to have been approximately 587, apparently reflecting an IFO elimination process carried out on old historical cases by the next-to- last BB Chief, Major Hector Quintanilla in the 60's (and of dubious scientific validity based on examples McDonald studied), which must have reduced the number of Unexplained cases by 114. Evidently the AF did not update its annual historical UFO statistics to reflect this gradual winnowing process, not realizing it could improve upon its anti-UFO PR position by reducing the perennially embarrassing number of Unidentifieds.

However, in reverse, Hynek re-evaluated 53 Blue Book IFO cases as Unexplained UFO cases, bringing the total partially back, up to 640, unfortunately a complete list identifying these is not available, though some of the worksheets have been copied by Jan Aldrich from CUFOS-Hynek files. A number of the re-evaluated cases have been included in *The Hynek UFO Report* book published in 1977.

Much more disturbing are the indications from my limited review of BB cases that there may be as many as possibly 4,000 Unexplained UFO cases miscategorized as IFO's in the BB files. McDonald similarly stated in 1968 at his CASI lecture that from his review of BB cases he estimated that 30-40% of 12,000 cases were Unexplained, or about 3,600 to 4,800. These are mostly military cases and many involve radar. McDonald argued with Hynek on a number of occasions from 1966 onward that the number of Unknowns in the BB files was in reality "about an order of magnitude" greater than what the AF claimed (so instead of 500-600 Unidentifieds possibly as many as 5,000-6,000).

The BB files total some 13,134 cases altogether, UFO and IFO, according to the Hynek-CUFOS revised statistics, or about 14,613 when 1,558 "info only" cases are included, per the FUFOR Index. Many cases are actually multiple incidents filed under one date/location. For simplicity I am therefore rounding up to 15,000 as the approximate total number of UFO incidents in the BB files.

This catalog is based primarily on the outstanding catalog prepared by Don Berliner of the Fund for UFO Research (FUFOR) from his exhaustive review of the then unreleased Project Blue Book (BB) files at Maxwell AFB (Air Force Base), Alabama, in Jan. 1974, which included many witness names that were later sanitized out ("blacked out") of the public release of the BB files by the Air Force in 1974-5. Berliner's effort ought to be supplemented with the tremendous intelligence coup by William Weitzel and FUFOR in early March 1998 in discovering and later securing copies of the unsanitized pre-redaction

record copy 16 mm Maxwell AFB microfilm of the BB files that the National Archives inadvertently made available (at the College Park, Maryland, NARA II facility in Record Group 341 / 190 / 68 / 08 / 03, boxes 1-6, 70 films numbered 30,362 through 30,431), but no resources are available for such a large-scale research project. All of UFOlogy owes an enormous debt of gratitude to FUFOR for this lasting contribution to the preservation and disclosure of this vast treasure of priceless military UFO records.

The AF security classification and privacy review panel began reviewing the BB files in mid-1974 and sanitizing witness names (also destroying or removing certain documents evidently thought embarrassing or incriminating to the AF such as famed Lockheed aircraft designer Clarence "Kelly" Johnson's signature page with his conclusion that the UFO he saw was an actual "device"). The AF finished the review and turned over sanitized files to NARS (now called NARA) in Dec 1975, including an added set of AF Office of Special Investigations (AFOSI) files of UFO investigations from 1948 to 1962 released by AFOSI (some of which were already in BB files and some not). Then NARS started microfilming files, publicly releasing the paper files in mid-May 1976 and the 94 reels of microfilm on July 12, 1976.

The Berliner catalog has been heavily augmented here with:

- (a) Listing of BB Unknowns selected from the National Archives index of BB cases (published by Steiger in Nov 1976 and available on the World Wide Web at various websites) but lacking descriptive sighting details.
- (b) Partial case listings of re-evaluations by Hynek and CUFOS staff (primarily in *The Hynek UFO Report,* Dell, Dec. 1977), who personally retained many thousands of unsanitized BB case files in his personal papers which are now with CUFOS (made available thanks to the tremendous efforts of Mary Castner and Jan Aldrich).
- (c) The 1969 Magonia catalog of landing/close encounter cases by Jacques Vallée who as Hynek's assistant in the 60's examined the BB files and Hynek's copies of BB cases, when many reports had not yet "disappeared."
- (d) Battelle Memorial Institute list of 12 Best Unknowns which also caught a few cases before records vanished (May 5, 1955, report issued as Blue Book Special Report No. 14).
- (e) Lists by James McDonald who saw and copied BB files on five research trips from June 1966 to Aug. 1970 and conducted his own exhaustive and independent investigations, especially see his prepared statement in the 1968 House Committee on Science and Astronautics hearing (McDonald 1968) and his 1969 AAAS paper as revised and published posthumously by Sagan & Page (McDonald 1972).
- (f) Records obtained by Jan Aldrich of Project 1947 directly from unsanitized BB files on the Maxwell AFB microfilm, from McDonald, CUFOS and Keyhoe/Richard Hall/FUFOR files, from FOIA requests to declassify AF HQ records at National Archives, and from SHG oral history and file recovery efforts.
- (g) Condon Committee investigations of BB cases published in the Condon Report (Bantam Books edition, New York, Jan. 1969; especially see the convenient "Sightings, Unexplained" listing in the index, p. 961).
- (h) FUFOR's *Index to the Case Files of Project Blue Book* (1997) which consists of a computer printout reportedly prepared by David R. Saunders of the Condon Committee, but which inexplicably includes cases up to Dec. 1969 near the end of BLUE BOOK and over a year after the AF contract with the Condon Committee had ended.
- (i) National Aviation Reporting Center on Anomalous Phenomena (NARCAP).
- (j) Willy Smith's case evaluations (On Pilots and UFOs, UNICAT 1997).
- (k) NICAP website compiled by Francis Ridge.
- (I) Dominique Weinstein's *Aircraft/UFO Encounters* (Nov. 1997; and rev. 5th ed. June 2001, *Aircraft UAP Encounters*).
- (m) H. B. Darrach and Robert Ginna, LIFE magazine article, April 7, 1952.
- (n) Various USAF records obtained by Freedom of Information Act (FOIA) requests, especially a collection of long-missing Project SIGN/GRUDGE records found at the St. Louis records center, however please note that it is uncertain whether all of these cases are in the BB/predecessor files or had ever been and got lost or were removed.

- (o) U.S. Air Force Intelligence TOP SECRET analysis of flying disc incidents, April 28, 1949, Report No. 100-203-79 or "AIR 203."
- (p) Martin Shough catalog of radar UFO incidents (RADCAT), 1987, revised 2002, and augmented by Jan Aldrich and Brad Sparks.
- (q) My personal investigations and research (especially all bracketed [] material and most parenthetical () material).

There are other resources that could be consulted and will be eventually. An outstanding example is the voluminous collection of Loren Gross histories only recently made available to this researcher thanks to the untiring efforts of Mary Castner of CUFOS and still undergoing review. But this is a first pass at an ongoing, continually revised and supplemented work.

Berliner's and the National Archives' lists represent most of the cases that BB itself categorized as Unknowns when it closed down in 1970. Only after all of the unsanitized records have been examined will it be possible to complete and double check this list. I hope to eventually include all cases that have ever been categorized as Unknowns by BB or its predecessor projects. Later, this full list will then be fully re-screened for IFO's.

At present it is unclear at what stage or stages the various lists of Blue Book Unknowns represent initial, intermediate or final evaluations by Blue Book staff and/or Blue Book consultants such as Hynek and Battelle Memorial Institute (which carried out the March 31, 1952 - March 17, 1954, statistical study known as BB Special Report 14, and internally as Project STORK subproject PPS-100). A comprehensive examination of the sanitized and unsanitized BB microfilm files and Hynek's enormous BB record collection at CUFOS would be needed to answer this question in most cases but at present there are no resources to undertake such a time-consuming project. Even so, because of lost and incomplete files this may not be possible in all cases even if the available records could be studied. The goal here is completeness of documentation and to try to fill in gaps where records have been lost. Whenever a case has been evaluated as an "Unknown" or "Unidentified" by BB staff and/or competent inverstigators it is included here, with preference given for those cases that have actually been investigated since it appears that quite a few that are on BB's list as Unknowns do not seem to have actually been investigated. Eventually such cases will be weeded out (at the screening stage mentioned above). Cases that were evaluated by the AF as Unknowns at some point but have turned out to be IFO's are excluded here (Fred Johnson and Chiles-Whitted are included here but with IFO notations)., and some famous cases may never have been officially considered unexplained by the military or perhaps only briefly (e.g., Kenneth Arnold).

However, please note that in general when there is some doubt as to whether a case was ever actually on file at BB I will err on the side of *inclusiveness* and will include it rather than omit it.

IMPORTANT: Please note that the AF did **not** simply start by calling all 15,000 cases "Unknowns" and then whittle them down to 700. Rather, the AF started with 15,000 cases and after a process of elimination and some investigation came up with only some 700 "Unknowns." That is the total at the end in 1970 but if cases that were classed as Unknowns at various times from 1947 to 1969 are included the total may be closer to the 1,500 or so cataloged here. Also please note that **information on each BB case in this catalog is presented from all sources** not just the information from the BB case file so that the sighting event is as reasonably complete as possible within space limitations.

For convenience "BB files" will be considered inclusive of predecessor projects at Wright-Patterson AFB (Wright Field), but not projects or investigations elsewhere, such as Air Force Intelligence or AFOSI.

Note that operational dates are not necessarily the dates of the orders unless the orders were implemented immediately or made effective immediately or both (e.g., Project SIGN was ordered by the AF Directror of R&D on Dec. 30, 1947, but not initiated until Jan. 23 and not formally "operational" as

Project HT-304 until Jan. 26, 1948; SIGN's name was ordered changed by the AF Director of R&D on Dec. 16, 1948, but not implemented until the day after SIGN's Final Report was issued on Feb. 11, 1949):

Comments such as "No further information in the files" are typically by Berliner. Annotations of "Case missing" are usually from the National Archives index. Uncertainties or discrepancies in reported data such as dates, times, etc., are indicated in brackets [] and/or with question marks [?], and conflicting data from differing sources may be indicated by "cf." in the sources notes. Cases that may seem out of order by time of day are listed approximately chronologically according to times as converted to GMT or UTC, though not perfectly rigorously. The local time is more important for indicating lighting conditions than robotically converting all times to a universal GMT/UTC which no one can relate to. Similarly I do not use 24-hour clock times as most people myself included do not do the mental time conversions necessary and the time data just gets ignored. Some date confusion exists on many nighttime cases due to midnight date crossovers, which will have to be resolved by study of the case files. Geographic locations and coordinates have been spot checked but not completely. State abbreviations (U.S.) are applied partially and only when confusion is avoided. Original units of measurement used by the witnesses are always preferred for accuracy and then conversions as needed presented in parentheses (except angular sizes are usually converted to degree measure or "full moon" units and the details if needed can be retrieved from the case file). Statute miles are preferred here, however in many cases military records referring to "miles" may refer to nautical miles and it is not possible at present to know for certainty which unit is used.

NOTE on Geographic Latitude-Longitude Coordinates: Many of the lat-long coordinates are from the Saunders-FUFOR Index and have not been checked; these usually refer to generic coordinates of a city or town and *not* to the exact location of the witness. UFO coordinates are usually never known as accurately as those of the witnesses so witness coordinates are given except where noted. The best coordinate data are when the lat-long coordinates are stated as "at" the given lat-long. This means the UFO witnesses were actually located "at" that position and it is not a generic set of coordinates. If locations changed because witnesses were in a moving vehicle the initial coordinates are given first in the geographic location header for the entry and subsequent coordinates are given in the body of the narrative if available.

		for a 12 ft diameter dark circle at the rear [center?]				
		of each, with a flat top surface and a 2-5 ft high

		with a dark vertical streak or shadow, and streak				
		tilted occasionally resulting in object moving laterally				
		slowly and briefly, with no visible means of

	Lt. James Henry Petty was flying F-80C jet fighter in				
	a slight turn to the left at 25,000 ft 320 mph (IAS?)				
	heading NE about 45° azimuth to meet up with a				
	lead aircraft (apparently another F-80C) piloted by				
	Lt. Sofbom of 7th Fighter Bomber Sq, also heading				
	NE at 45° at this point in a sharper gradual left turn,				
	when he saw an unidentified object about 3 miles				
	away at his 2 o'clock position (about ENE) following				
	the lead aircraft in a tracking position about 1,000 ft				
	below and to the right-rear [about 5 o'clock position				
	roughly 1 mile away] from the lead aircraft traveling				
	about 275-300 mph, silhouetted against clouds.				
	During the lead aircraft's wide left turn that				
	eventually resulted in a 260° heading, the UFO				
	"accelerated" and pulled up to level position [at 3				
	o'clock] and climbed to the lead plane's altitude while				
	the F-80C rapidly approached and overflew both the				
	lead aircraft and UFO, having to climb (slightly) to				
	avoid collision [now heading about NW about 315°],				
	but getting "a very good look from the top and both				
	sides" of the UFO, Petty saw that it was a				
	rectangular cream-colored flat object appearing to be				
	made of "muslin" about 20 ft high, 60 ft long, but				
	only about 2 inches thick, oriented vertically, not				
	reflecting sunlight despite bright sun, no exhaust, no				
	apparent means of propulsion, not wavering or				
	fluttering. Petty first thought it was an aerial tow				
	target but knew there was no aerial gunnery				
	scheduled. After being overflown, UFO pulled away				
	from lead aircraft, accelerated to 600 mph on a 330°

Object apparently circled around at high speed in about 10 secs [roughly 8 miles or about 3,000 mph] reappearing on Harvey's right [at around 2 o'clock position] and continued to circle from right to left in front of the F-80C apparently still at 10,000 ft and closer [roughly 1 mile], was seen "clearly" contrasted against the ocean. Object was a white square 12 x 12 ft (height x length) thin, appearing somewhat like an aerial tow target, oriented vertically, with no evidence of propulsion, exhaust, control surfaces or lights. Object was lost after about 5 secs when it blended in with the lower overcast clouds on about 270° W heading [roughly 10 o'clock from F-80C possibly 3 miles range]. 237.		May 11, 1950. 9 miles W of McMinnville, Oregon (at 45.1019° N, 123.3331° W). 7:20 p.m. (PST). Evelyn Trent was feeding the rabbits in their backyard just before sunset when she spotted an object to the N in the distance and called out to her husband Paul Trent, who was in the house at the back door, asking him to retrieve their camera. She went into the garage to look for the camera but he found it in the house, ran out into the yard toward where his wife had been then he saw the rapidly approaching large metallic object to the N, saw the object turn on a W heading, bank its underside upward, felt a gust of wind from the object seemingly, snapped a photo of the object at azimuth 334° (about NNW) elevation 14°, angular size 1.67°, then walked 5 ft to his right to compensate for object's motion to the left, snapped a 2nd photo about 30 secs after the 1st, which shows a metallic pie-pan shaped object 1.46° angular size with a large off-center angled antenna or pole projecting from the top, at azimuth 317° (about NW) 12° elevation. Evelyn had joined him by the time Paul started taking pictures and later described the arc covered between photos as about 15° (close to actual figure 17°). Distance and size of object estimated by the witnesses as about 1/4 mile distance and 20-30 ft diameter, or "parachute-sized" (about 24-28 ft), or maximum angular size 1.3° (close to the photographically measured 1.46°-1.67°). Condon Committee and Bruce Maccabee estimated distance about 1 mile and object diameter about 100 ft. Several other witnesses reportedly saw the object. Sperry made evasive 45° turn to the right (to 275° heading), object passed from 11 o'clock to 7 o'clock position (about 125° or SE) to the left at slightly higher altitude meanwhile crossing in front of upper part of full moon to the S (at 145° or 159° azimuth 22° or 27° elevation, depending on whether EST or EDT time, 97% full) where submarine-like silhouette clearly seen, about 5 miles away. Sperry turned left back onto original course to get the object back in view, object may have stayed stationary about 30 secs at this point. Gates then noticed object circled around to the right side, Sperry banked right again, while the object paced the airliner about 20-30 secs before climbing to the E at a 30° angle at "fantastic" speed and disappearing. RAF Fighter Command Control at Neatishead radar tracked an unidentified aircraft designated "85N" at 55° azimuth range 90 miles, located near Cromer at 15,000 ft traveling about 325 knots (375 mph). After 2 mins radar tracking, Neatishead GCI controller scrambled 257 Squadron Red Section leader Flight Lt. Kartley and a wingman at 1:24 p.m. in 2 RAF Meteor jet fighters from RAF Horsham St. Faith (52°40′ N, 1°17′ E), airborne 1:27 p.m. At 1:28 p.m. Neatishead Type 13 radar tracked target at 40,000 ft and height was radioed to jets which leveled off at 15,000 ft. At 1:35 p.m. jets reached 10 miles N of Cromer climbing in altitude to 25,000 and 30,000 ft where the pilots saw two vapor trails suggesting to them widely spaced engines on a single aircraft to their right at great distance and higher altitude on a heading of 280° on a parallel course to the jets. Jets got "slightly ahead" of the contrails while keeping them in sight, at a radar track range of 5 miles to the target. At 1:41 p.m. Neatishead radar plotted unidentified target and Meteors at 7 miles due N of Hunstanton heading WNW. At 1:42-1/2 p.m. pilots saw contrails change heading to the right and they did the same, heading NW or N, all confirmed by Neatishead GCI radar controller. At 1:45 p.m. radar	23 mins	5+	RV

		tracked jets and target 5 miles S of Mablethorpe, when blips faded; at this time pilots were at 38,000 [or 38,800] ft with contrails still above them and behind on the left at 7 o'clock position, estimated visually at 30 miles distance when contrails turned to the right heading due N 360° then disappeared. Jets made 360° right turn while still climbing to 39,500 ft but were unable to see contrails or aircraft. Object always remained too far to be seen. At 1:49 p.m. blips reappeared on GCI Neatishead radar which tracked jets 10-15 miles E of Grimsby, but no unidentified target, and GCI ordered jets to turn right to the S to verify target identity on scope. Two USAF F-84's from Manston in the area independently saw the Meteors at about 36,500 ft and also the two unidentified contrails higher above. (Jan Aldrich)

Cheever on a flight from Goose Bay, Labrador, to Resolute, North West Territories, heading NW at 208 knots (239 mph) over Hudson Strait, picked up radar interference which came from an unidentified aircraft at relative bearing 130° (E) at 28 n.mi. (32 miles) heading away. Anti-jamming device on the APQ-24 radar was turned on at 11:20 p.m. but did not affect the jamming on the radar scope. At 11:35 jamming covered 120° of the right side of the radar scope and then an unidentified aircraft was seen visually on the right side of the B-36, which was then at 18,000 ft at 65°40' N, 71°40' W (over SW Baffin Island). Object had "unconventional running lights" all white instead of red-green, with twin white flashing tail lights, traveling about 30 knots faster than the B-36, crossed the front from right to left heading 334° true towards the NNW, and was in view about 20 mins [to a distance of about 12 miles]. While the object was still visible, at 11:50 p.m. the B-36 autopilot and APQ-24 radar set went out, the latter returning after a few mins about when the object disappeared. ECM operators S/Sgt. Donald E. Jenkins and S/Sgt. Doty T. Larimore on 2 B-36 flights from Goose to Resolute while still over Labrador the next day detected carrier wave signals at several frequencies and some radar-like pulses at other frequencies, all below 1,000 MHz. At 12:52-53 a.m., unidentified target was tracked inbound at 210° azimuth heading N at 45 miles range for about 1 min, first F-94 at 30,000 ft was vectored on 180° heading to attempt intercept at 20 miles projected range of target to radar site, but target reversed course over an 8-mile radius of turn (roughly 5 g's) and headed outbound at 1,500+mph heading S and away from radar site and F-94. Pilot Lt. C. E. G. and radar observer Capt. V. D. R. on first F-94 tracked two targets, one strong one faint on airborne radar, at 25,000 ft altitude range 24,000 yards at 40° to the right (220° azimuth) rapidly crossing over to the left to disappear at range 200 yards 55° left of heading, closure rate too rapid to follow by hand control of antenna and unable to lock on. F-94 circled for an hour before getting another target at 12 o'clock low, dropped to 25,000 ft with 100-knot closure rate, no visual contact, had to pull up at 200 yards distance to avoid collision, F-94 released to return to base at 2:13 a.m. Pilot Capt. 		43.0° N, 82.8° W). 9:40-10 p.m. (EST). One of 3				
		USAF F-94B's on an ECM exercise at 9,000-9,500 ft				
		from 61st FIS at Selfridge AFB climbed to 20,000 ft				
		on a 270° heading when it was vectored to a UFO				
		headed S [or SE?] at 625 mph from Saginaw Bay by				
		a GCI air defense radar (callsign "Avenger") [tracked				
		for about 7 mins evidently]. Ground radar told pilot				
		Capt. Edward J. Slowinski (Sloan) to look at his 3				
		o'clock low position for a target (to the N), but				
		nothing was found, then told to look at 3 o'clock high				
		(radar man remembered being told "low" then				
		"high," pilot said he was told "high" then 'low"). F-				
		94 turned right to pursue. Object suddenly reversed				
		course with a tight 180° turn back N on ground radar scope [evidently at 300 mph to match F-94's speed,				
		in a visible loop on the radar scope on a right turn				
		paralleling the F-94's right turn but tighter]. As the				
		F-94 continued right turn, radar observer Lt. Victor				
		Helfenbein picked up target at 4 miles range on APG-				
		33 airborne radar, level with jet altitude, at 60°				
		relative or 2 o'clock (about 330° to 360° azimuth				
		depending on how far into the turn) (pilot said				
		Helfenbein reported 2:30 o'clock). Airborne radar				
		contact made [for possibly 20 secs during the turn]				
		then at dead ahead 12 o'clock position radar got				
		lockon for 30 secs until target "jumped lock" when it				
		apparently almost doubled its 4-mile [or 4-5 mi]				
		distance in one sweep of the ground radar				
		accelerating to 1,400 mph average speed [4-mile				
		jump in 10-sec sweep of radar, thus reaching peak				
		2,600 mph at about 20 g's]. Jet briefly put on afterburner to try to close distance with object on				
		360° heading at 21,000 ft increasing speed with				
		afterburner to about 350 knots IAS (about 490 knots				
		TAS or 560 mph) [for about 5 mins?], but object				
		would put on a burst of speed and pull away from				
		the jet. F-94 pilot first saw multiple lights ahead as if				
		from a jet aircraft, but no exhaust or trail, and				
		followed the GCI vectoring to target ahead between				
		12 o'clock and 1 o'clock positions. Object appeared				
		"many times larger than a star" then "took on a				
		reddish tinge, and slowly began to get smaller, as if				
		it were moving away," and changed color from				

		reddish then bluish-green then white then red again in sequence (both crewmembers in agreement) low on the horizon to the N (possibly the star Capella and unrelated to radar target, though Helfenbein was an expert celestial navigator since 1943 with 1,400 flying hours and had never seen anything "like this before"). F-94 continued N heading [for about 5 mins] at about 300 mph as object maintained lead at 6-10 miles range, with GCI telling F-94 crew they were not gaining on the target on scope. Chase ended with F-94 about 5 miles N of peninsula at Burnt Cabin Point (at 44°10′ N, 82°45′W) having to return because of low fuel, object then slowed to 200-300 mph before disappearing after another 1-2 mins. After 5 mins object suddenly climbed vertically 7,000 ft in 5 secs [1,400 ft/sec average, or peak velocity about 2,000 mph at about 17 g's] to disappear in thin broken overcast clouds at 13,000 ft and causing the clouds to glow as if lit by searchlight. Bowley radioed the CAA controller in Tucumcari, N.Mex. Shortly after, the object reappeared under the clouds, the CAA controller was told to look for it but couldn't see it [probably because he was told to look in the wrong direction, to the SW, or it was obscured by clouds], after 2 mins it climbed to the W and disappeared. Hampton Bays, Long Island, New York. 12:18-12:21 a.m. Civilian woman Madelaine Ward saw "a large aircraft" of exotic design with a lighted red band around the middle, 100 ft diameter, flying very slowly and low, coming straight toward her house with an oscillating motion, then stop near her, 80 ft above ground, fly backward over the water, hover, making the noise of a swarm of bees. Object's top section supported a series of red lights and a cabin with 4 portholes through which a control panel was visible, no occupant seen. The cabin rose above the object, rotated, then glided back. Object tilted toward the W, rose toward the SE, disappearing within 3 secs at an 80° angle of climb. 2 days later a yellowish moss was found at the site. 		French Morocco. 7:15, 7:38, 9:55 p.m. Crews of				
		USAF KC-97 aerial tanker planes and a C-54				
		transport saw 1-2 white or amber objects or lights				
		make passes at the aircraft on collision courses as				
		they practiced GCA landings. At 7:15 p.m., KC-97				
		pilots Capt. G. E. Brown, 1st Lt., L. B. Gordon and 1st

		at 180° on a collision course and they made an evasive 360° turn. At 7:38 p.m. another KC-97 flown by pilots Capt. Robert R. Zadnick, Lt. Paul R. Fisher and Lt. George A. Kerr, also 301st ARS, 301st BW, on GCA landing at 180° heading at 1,500 ft about 5 miles SW of Nouasseur base saw a light at about the same altitude and to the left of course appearing to be headed W on a cross path or collision course, as it crossed it was seen to be 2 lights as if 2 jets in formation, no aircraft running lights. One light passed over and one under the KC-97. At 9:55 p.m., C-54 from Lagos, Nigeria, based at Kelly AFB, Texas, senior pilot Capt. William M. Pond, copilot Lt. I. W. Gilchrist and navigator Capt. James F. Pullen while flying at 2,000 ft on 170° heading on GCA landing at Nouasseur base saw white or amber light like an aircraft landing light at about the same altitude approaching on a collision course heading W 2-3 miles away, then turned onto a direct headon course, passing within 2 miles, then suddenly disappeared like turning off a light for 10-15 secs, then reappeared hovering, descended to ground then rose, and disappeared behind the C-54 after				
		completing its turn onto final landing approach. No radar or other visual contact made. (Jan Aldrich)				
821.		March 9, 1954. Cincinnati, Ohio. 3:57-4:05? a.m. Civilian-military pilot John H. Stewart while driving N saw a pulsating bluish-white luminous halo surrounding a dark ellipsoidal object that may have been larger than a DC-6 (117 ft) slowly moving S at about 2,000-3,000 ft height, then hovered for 7-8 mins over the General Electric plant, the last 4 mins of which Stewart observed after stopping his car. Object accelerated and suddenly changed color to yellow then red, changed course to the E, then disappeared in an almost vertical climb in secs. (Jan Aldrich)	7-8+ mins ?	1	4

825.		April 7, 1954. 3 miles SW of Fentress, Virginia. 3 p.m. USN pilot C. R. Allen flying F-6F for Fleet Training Center, Norfolk, Virginia, at 3,000 ft heading W near Fentress saw 2 strange saucer-shaped discs in close formation at 3,500 ft height about 15 miles away at about 2 miles NW of Lake Drummond heading NE, seen below and against cloud base of scattered cumulus clouds at 3,000-3,500 ft. Allen turned right to follow objects as they covered about 140° of arc maintaining about the same distance, disappearing near Cape Henry to the NE about 20 miles, covering 30 miles total in about 25-30 secs [3,600-4,300 mph]. (Jan Aldrich)	25-30 secs	1		
826.	2962	April 8, 1954. Chicago, Illinois. 4:30-5 p.m. Lelah H. Stoker saw a brilliant white round-topped disc, parachute-shaped, with a humanoid suspended beneath it, skim back and forth over the water. Stoker called the Coast Guard, a CG cutter appeared after 10 mins, then the UFO approached shore. Stoker saw a short human-like occupant in a green tight one-piece suit and suspended below the object who got out in undergrowth along the shore then walked around. When CG cutter gave up searching the occupant returned to the object which moved back over the lake then took off at high speed to the E. (Berliner; Davis-Bloecher 1978)	30 mins	1		
827.		April 22, 1954. San Nicholas Island, Calif. 2 p.m. USN Seaman Apprentice James B. Stephens, Jr., and Seaman Bernard G. Klein, Jr., while driving a Navy vehicle on base saw a 4-6 ft long gray cigar-shaped object with pointed nose traveling just above the ground on a near parallel course that would not cross the road until far ahead. The object suddenly impacted the ground sending up a cloud of dirt or dust and disappeared from sight. They stopped and searched for 20+ mins but found nothing. Further USN investigations and radioactivity surveying found no traces. (Jan Aldrich)		2

		Brown first saw the object at about 243° azimuth 10° elevation about 4 miles away moving to the left heading E viewed across the bow of the ship to the SSW at which point he began stopwatch timing (6.3 secs at disappearance, azimuths measured immediately after sighting by reference to 5 ships and a landmark used as sighting fix points). Object passed through point of closest approach at about 160° azimuth 12° elevation 1-1/2 miles away, moving to the left through a gradual-arc flight path of about 8 miles radius of curvature (about 40 g's centripetal acceleration), passed through E along a now straightened path headed to the NE, reaching maximum N position at 70° azimuth about 8 miles away when it curved slightly back as if veering off sharply to the right to head E, disappearing at about 68° azimuth 10° elevation 9 miles away behind a cloud bank. No sound or trail. (Sparks; Jan Aldrich)				
862.	3140	July 30, 1954. About 15 miles SE of Los Angeles, Calif. 11:15 a.m. (PDT). Hughes Aircraft test pilots Englert and Peterson, flying a B-25 bomber on a maintenance test hop heading ESE airspeed 170 mph [true airspeed about 200 mph] at 7,000 ft, saw a metallic, pencil-shaped object in horizontal orientation hover at above 30,000 ft for an unstated length of time while they climbed to 11,000 ft and made 30° turns to try to get a better view of object [over 4+ mins at max climb rate of about 1,000 ft/min]. Peterson, also a National Guard F-86 jet pilot, attempted to scramble jet intercept from Van Nuys National Guard Ops but could not establish radio contact (EM??). 1009.	Feb. 13, 1957. Lincoln AFB, Nebraska. 2:30 a.m. USAF Director of Operations and 3 tower controllers at 2 radar sites, the GCA and NCOIC, tracked several targets flying behind an airliner at a distance of 5-6 miles traveling 2x as fast. No IFF response. Objects could hover and move at high speed, one split into 2 objects, another did 180° turn. Blips the size of a B-47. 1014.	March 23 [22?], 1957. Oxnard AFB, Calif. 11:15 p.m. (PST). Beaudoin and several independent witnesses saw maneuvering lights. (Hynek UFO Rpt pp. 53-54; FUFOR Index)	5 hrs 45 mins ?	sever al		
1015.	March 27, 1957. Roswell, New Mexico. 8:35 p.m. USAF pilot Lt. Sontheimer flying C-45 transport saw to the left 3 bright white circular objects in tight formation on collision course. He immediately flashed his taxi lights, one object shot straight up above him the other 2 continued on passing in front. When he flashed his taxi lights (again?) the objects instantly blinked out and disappeared. (Weinstein; NARCAP; FUFOR Index)	6 secs	1?		
1016.	April 14, 1957. 1/2 mile E of Vins sur Caramy, France (at 43°25.7' N, 6°10' E). 3 p.m. Mrs. Marie Garcin and Mrs. Julia Rami walking NE on Road D24 heard a loud deafening noise and saw about 300 ft ahead of them a 5 ft tall 3 ft wide metallic topshaped object covered with vibrating sharp spines landing near a road sign which started to vibrate loudly, then the object hopped over the road at a height of about 15-30 ft, the women cried out and	1-2 mins	3	2	

		another witness Mr. Jules Boglio about 1,000 ft away looked and with the women saw the object land (a 2nd time) in the next road, then jump over another road sign which then vibrated with loud noise. 2 other witnesses reportedly saw the object at a much greater distance. 1021.		June 3, 1957. Shreveport to Converse, Louisiana. 8:30 [9:35?] -9:30? p.m. (CST). Shortly after takeoff from Shreveport Airport, heading for Lake Charles, La., and climbing, Capt. Lynn Kern and FO Abbey Zimmerman flying Trans-Texas Airlines Flight 103 were told by the control tower that a small light was visible nearby. They saw the star-like blue-green pulsating [?] object hovering (approaching?) at their 10 [2?] o'clock position at about 400 ft then climbing rapidly to 1,000 ft paralleling the airliner then at 110 knots speed (130 mph later 165 mph) but at higher altitude and 1/2 mile away. Kern flashed landing lights and object responded with a beam [?] of light. 2nd blue-green pulsating object joined the first on the opposite side of the airliner (then at 9,000 ft), air crew confirmed from tower that it had both objects on radar and visually through binoculars, objects headed S at 170° climbing to about 10,000 ft and followed airliner to Converse, La., (about 45 miles S of Shreveport) where pilot queried ADC radar site, England AFS, Alexandria, La., which confirmed the 2 targets in the airliner's vicinity at 9,700 ft. Objects disappeared from sight in a cloud deck to the SW. (Hynek UFO Exp ch. 7, case RV-6; NARCAP)	1 hr ?	4+	RV, multiple radars, bincocular s
1022.	4760	June 12, 1957. Milan, Italy. 7:30 p.m. G. U. Donadio, translator for export-import firm, saw an object "big as a hen's egg" [at arm's length?] fly very fast, zigzag, hover and revolve, then shoot up. (Berliner)	17 mins	1

	115°34.4'W), Nevada, Senior Director 1st Lt. Clifford E. Pocock, scope operator A/2c Walter Lyons, and control technician A/1c Armand Therrien, using the FPS-3A L-band search radar tracked an inbound target at average speed of about 6,200 mph for 48 secs [?] when it "stopped abruptly" and "remained stationary" for 12 secs to the ENE at 75° azimuth 85 miles range, N of Grand Canyon, then target headed outbound at about 7,000 mph on 85° heading over the last 72 secs before disappearing at the radar's maximum range at 81° azimuth 224 miles range (near Marble Canyon, Ariz.). Target responded to encrypted military IFF transponder signals and transmitted encrypted responses. Similar occurrence 2 days earlier noted by night crew but none others in 2 years. (Jan Aldrich)			
1025.	July 17, 1957. Gulfport, Mississippi, E Texas to Ft. Worth and to E of Oklahoma City. 4:30-6:40 a.m. (CDT). Electronic Intelligence (ELINT) RB-47 jet on training mission repeatedly encountered maneuvering radar-transmitting UFO which correlated with visual of brilliant white-red light tracked at 10 nautical miles from RB-47 by Dallas/Duncanville AFS 647th ACWRON air defense FPS-10 radar (32°38.8' N, 96°54.3' W), with same motions outpacing jet, simultaneous blink outs on Duncanville radar, ELINT monitors, visually and on airborne navigation radar. 1051.	Nov. 4, 1957. 3 miles SE of El Paso Airport, Texas. 7:30 p.m. Border Patrol inspector Burton saw egg-shaped object with bluish glow approaching from the SW at 30° elevation with whirring sound like artillery shell after car stalled and headlights dimmed and blacked out. Object passed over car at 100 ft height headed W, changing altitude at irregular intervals, rose vertically at Franklin Mtns. (Hynek UFO Rpt p. 181; FUFOR Index)		1		EM
1052.	Nov. 4, 1957. Kirtland AFB (at 35° 3' N, 106°38' W), Albuquerque, New Mexico. 10:45 p.m. (MST). CAA air traffic controllers R. M. Kaser and E. G. Brink saw a highly maneuverable 15-20 ft egg-shaped object with a white light at its base circle over the W [E?] end of the base at 150-200 mph and come down in a steep 30° dive as if landing on Runway 26, to the N or NW of the tower at about 1500 ft. Radar tracked part of this maneuver. Object then crossed flight line, runways and taxiways heading towards the tower at about 50 mph and 20-30 ft above ground, observed through 7x binoculars till it reached about 3,000 ft to the ENE near the NE corner of the floodlit restricted nuclear Weapons Storage Area / Area D/Drumhead Area, and a B-58 bomber service site, where it hovered for 20 secs-1 min then headed E again, at about 200-300 ft height, then suddenly shot up at a steep climb at about 45,000 [4,500?] ft/min. Controllers contacted RAPCON which tracked object on CPN-18 radar traveling E then turning S, circling the Albuquerque Low Frequency Range Station then headed N [disappearing at 10 miles and reappearing 20 mins later to circle around ?] to follow 1/2 mile behind a USAF C-46 that had just taken off to the S for 14 miles until both went off scope. Hovering radar target then appeared to the N over outer marker for 1-1/2 mins before fading. (McDonald 1968, 1972; Hynek UFO Exp ch. 7, case RV-3)	25 mins ?	3+	1/2 ? 		rising at an estimated speed of 1,000 mph and				
		disappeared due to extreme distance at about 30° to				
		35° elevation still due S after 40 secs, with the				
		impression it was heading away from him to the S				
		growing smaller until unable to be seen [apparently				
		increased distance to at least 400 miles to drop				
		below minimum visual resolution, at about 36,000

		size and distance 600 ft at 3 nautical miles, using				
		passing and turning Capitol Airlines Flight 407 at 2				
		miles distance during the sighting as aerial distance				
		reference point. Townsend was familar with				
		standard takeoff pattern of flights from Washington				
		National Airport and that the airliner he saw during				
		the sighting headed S on a track about 1 mile to his				
		left (along the Potomac River) and then turned right				
		across his field of view of the object. Pilot of Capitol				
		Flight 407 took off in a DC-4 at 5:59 p.m. (EDT) from

through binoculars. FAA station reported UFO to	
Seattle Air Route Control Center at 5:10 a.m., which	
in turn reported it to Hamilton AFB, Calif., which	
scrambled 6 F-102 jets from Portland [?] to intercept	
UFO. FAA station observers saw object hover and	
emit long tongues of red, yellow and green light	
which extended and retracted at irregular intervals.	
As F-102's approached the object from the SE [?] it	
turned into mushroom shape, emitted red and yellow	
flames from lower side and ascended rapidly,	
disappearing above scattered clouds at about 14,000	
ft [altitude? height?]. [Object's departure forced one	
F-102 to swerve to avoid collision, another nearly lost	
control from UFO's turbulent wake; tracked on F-102

		roaring sound and saw a bluish-orange funnel of				
		flame in the sky to the SW slowly descending				
		possibly 1/2 to 1 mile away, bottom of flame hidden				
		behind a hill. He tried to pursue the flame, turning				
		off to the right on a rough gravel road to the SW,

		the oval object, now seeming long-axis horizontal at				
		this angle (about 120° from previous sighting), with				
		a red insignia or lettering in the middle about 2 x 2-				
		1/2 ft, and slowly rising. He thought it was going to				
		explode and ran away, putting car between him and				
		the object, about 25 ft and 6 secs of running from				
		the car he glanced back and saw object had risen				
		about 20-25 ft to level of his car, ran another 25 ft

		noise stopped, he looked up and saw object heading				
		to the SW (towards W end of Socorro Municipal

1400.	Aug. 13, 1965. Baden, Penna. [> 9:30 p.m.?] 37-year-old civilian had just put his car in the garage when he saw an disk-shaped object about 300 ft in diameter, fly in front of the moon (which rose in the E about 9:30 p.m. EDT at 107° azimuth) on a N heading at about 50 mph about 2,300 ft away, surrounded with orange lights that weakened as a blue source came on, very intense for about 3 secs. Then all lights disappeared and a sort of "shockwave" effect shaking tree leaves ensued. Witness entered his house and called the USAF, 20 mins later his vision became hazy, eyes painful, gradually losing vision in both eyes, and his entire body was "sunburned." Medical exam compared symptoms to UV exposure. Vision came back gradually over several days. (Vallée Magonia 677)		1	14

Object returned twice at 8:45 and 9 p.m. finally disappearing to SSW [or SW?]. Radio drowned out by static, a tractor engine stopped. Next day, a purplish liquid, 2 ft x 2 ft marks and patches of singed grass were found at the site by USAF Capt. James Dorsey and 4 technicians from Niagara Falls AFB. (Berliner; cf.
